

Pictures of the kids that inspire me

The drilling rig and truck that arrived in Tanzania, and will start drilling wells for clean water soon

Mission Tanzania

An outreach ministry of Saint Barbara Greek Orthodox Church

Medical Team 2012

The clinic we reopened in Bukoba

Dr. Curly treating a child

80% of the diseases stem from unsafe water and insufficient sanitation

Water is the most fundamental step in the international development of Africa. It produces health, and it frees up time so children can get to school and women can get to work.

Thanking me for the water and candy
